3. In our Report for 1881 we noticed the fluctuation in the number of persons who received relief in the five previous years.

The number had been increasing in each successive year since 1877, and reached the maximum in the year ended February, 1881, when the average daily number of persons relieved in the Workhouses during the year amounted to 53,796, and the average daily number on Out-door relief to 60,883; but we are glad now to be able to report a change in the other direction, the average daily number of Workhouse inmates in the last year, ended February, 1882, having been less by 1,024 than in the previous year, and the average daily number on Out-door relief having diminished by 687.

4. In our two last Annual Reports we referred to the proceedings of our Board, and of Boards of Guardians, in carrying out the measures that had been adopted to meet the exceptional distress which had prevailed in parts of Ireland since the winter of 1879-80, and we are now in a position to state, with much satisfaction, that all those temporary measures have ceased to be necessary, and that the relief administered in the ordinary manner has been found sufficient to meet the wants of the poor during the past winter.

5. The power to authorize exceptional Out-door relief under the Relief of Distress Act expired on the 1st of March, 1881, (except in the cases of the families of persons detained under the provisions of the Protection of Person and Property Act), and Out-door relief to the able-bodied classes may now be given in any Union only when the Workhouse is full, or when it is unfit for the reception of poor persons by reason of fever or infectious disease. We felt it right to make an order, in the month of March last, under sec. 2 of the Act 10 Vic., cap. 31, authorizing such relief in the Waterford Union, where there was a serious outbreak of small-pox, and our Inspector reported that almost every department of the Workhouse was as full as was desirable, considering the prevalence of

fever and small-pox; but it has not been necessary to adopt that course during the past winter in any other Union in Ireland.

6. The resources of the Guardians derived from the Poor Rates were in some few Unions inadequate to meet the expenditure of the year 1881, and to pay off the debts incurred during the two previous years, and we therefore felt it necessary to take advantage of the provisions of the Relief of Distress Amendment Act, 1880, and the Local Government Board Amendment Act, 1881, and to recommend grants to certain Unions in aid of the rates. The grants made since the date of our last Report amounted to £17,664 6s. 8d., and a return containing the names of the Unions so assisted, and the amount granted in each case, will be found in the Appendix.

7. We reported to your Excellency in 1881, that we had found it necessary to dissolve the Boards of Guardians in three Unions, viz., Belmullet, Swineford, and Newport, and to appoint paid officers to carry into execution the provisions of the Poor Law Acts. In all these Unions the Vice-Guardians have now ceased to act, and the Boards of Guardians were reinstated at the time of the annual election of Guardians, last month.

8. With reference to the repayment of Loans under the Seed Supply Act, we pointed out in our former report, that, acting under the authority of the 11th Section of the Relief of Distress Amendment Act, we authorized the postponement of the Seed Rate for one year in the whole of forty Unions and in parts of twenty-eight others. The Local Government Board Amendment Act, 1881, enabled us to accord further indulgence to Boards of Guardians in regard to the repayment of the Seed loans, and we were empowered to divide into two parts each Seed rate which had not then been made. We were thus in a position where no Seed rate had yet been made to allow the debt to be collected by four annual instalments, and where one Seed rate had been made to allow the balance of the debt to be collected by two annual instalments, and we accordingly authorized the Guardians of 107 Unions to divide the Seed rates in the manner described.

The amount payable to the Treasury by Boards of Guardians on the 1st of August last, in respect of the first instalment of the debt, was £138,299, and we find that £123,121 was paid to the Commissioners of Public Works up to the 1st instant, and that the balance due is gradually diminishing.

9. We now continue the series of recent statistics by repeating with one additional year the table showing the number of persons assisted by Boards of Guardians to emigrate, and the cost incurred for that purpose in each year, that is to say, for now thirty-two years past, ended on the 25th of March. The highest figure in this series was 4,386 in 1852; whereas we find in the year 1878 only 148 persons were assisted to emigrate. But in the year ended 25th March, 1879, there was an increase of 96 in the numbers, and of £212 16s. 8d. in the expenditure over the previous year; in the year ended 25th March, 1880, there was an additional increase of 48 in the numbers, and of £170 3s. 10d. in the expenditure; in the year ended 25th March, 1881, there was a further increase of 1,022 in the numbers, and of £2,761 10s. 11d., in the expenditure; and in the year ended 25th March, 1882, there has been an increase of 148 in the numbers, and of £728 6s. 2d., in the expenditure over the year ended March, 1881.

From the above table it will be seen that there has been an increase of £28,463 in "out-door relief," an increase of £1,982 in "salaries and rations of officers," and an increase of £21,149 in "all other expenses," making a total increase of £51,594, from which is to be deducted a decrease of £16,212 in "in-maintenance and clothing," and a decrease of £221 in the "cost of relief for deaf, dumb, and blind," being a total decrease of £16,433, leaving a net increase of £35,161.*

TREASURY SUBSIDIES.

16. The following is a statement of the Parliamentary Grant for Medical and Educational purposes, and for Salaries under the "Public Health (Ireland) Act," for the year ended 25th March 1881:—

	Amount allowed for the Year.		
	£	s.	d.
Medical purposes,	73,080	7	11
Educational purposes,	9,755	7	10
Total for Medical and Educational purposes,	82,835	15	9
For Salaries under Public Health Act,	13,716	1	11
Total,	96,551	17	8

The total amount allowed under the Parliamentary Grant for Medical and Educational purposes for the year ended 25th March, 1881, namely, £82,835 15s. 9d., is £470 4s. 0d. more than the amount for the previous year.

The amount for Salaries under Public Health (Ireland) Act, namely, £13,716 1s. 11d., is £132 12s. 3d. less than for the previous year.

* It should be observed that this financial return, showing increased expenditure, is made up for the year ended Sept. 29th, 1881, which included the whole of the winter of 1880-1, whereas, the tables in clause 2, p. 6, showing a diminution in the average daily number of persons relieved, are brought up to the 4th of February, 1882, and the year ended on that date did not take in the period in the winter of 1880-1, when the number relieved reached the maximum.

Hence it will be seen that while the total expenditure of Poor Rates, for all purposes, viz.: relief, medical relief, burial-grounds, registration of births, deaths, and marriages, sanitary measures, expenses under Superannuation Acts, payments under Cattle Disease (Animals) Acts, and under National School Teachers Act, was, in 1880, £1,187,248, making a poundage of 1s. 8½d. on the valuation, the expenditure in 1881 for those purposes was £1,231,617, being an increase in the total expenditure of £64,369, and making a poundage of the expenditure on the valuation of 1s. 9½d.

The current Sanitary Expenditure for the year was £48,918, in comparison with £51,937 in the previous year.

MEDICAL CHARITIES ACT, AND VACCINATION ACTS.

18. We next submit to your Excellency the report of our proceedings under these Acts of Parliament for the year ended 30th September, 1881.

The annexed table exhibits, in the usual form, the progress and fluctuations of the medical relief afforded under the Medical Charities Act, for each year of the twelve years ended 30th September, 1881, in each province, and for the whole of Ireland.

The cases are distinguished, as usual, into those prescribed for at the Dispensaries, and those attended at the patients' houses, each class of cases occupying a separate column.

In Ulster there has been a decrease of 10,087 cases prescribed for at the Dispensaries, and a decrease of 5,357 of those attended at their own houses.

In Munster there has been a decrease of 17,239 cases prescribed for at the Dispensaries, and of 7,797 of those attended at their own houses.

In Leinster there has been a decrease of 20,299 cases prescribed for at the Dispensaries, and a decrease of 6,896 of those attended at their own houses.

In Connaught there has been a decrease of 6,634 cases prescribed for at the Dispensaries, and a decrease of 2,609 of those attended at their own houses.

The last three columns in the Table show a decrease of 76,918 cases for all Ireland, including both classes, as compared with previous year.

It will be seen by the particulars in our annual Report for 1881, that there had been a net increase of 37,155, in the number of cases throughout Ireland in 1880, as compared with the previous year, and it is satisfactory to observe that there was a marked decrease in the cases for the year 1881.

The following Returns show the number of cases, including the numbers given in the Return for the four quarters ended 31st December, 1881 :—

PUBLIC HEALTH.

26. Our Report upon Public Health is continued from the 32nd and subsequent paragraphs of the last annual Report, in which details were given of the operations in regard to sewerage and water-supply, under the provisions of the Public Health Act, 1878, in continuation of the detail of proceedings under the Act of 1874.

The extent of the operations relating to sewerage and water-supply is still in some degree measured in Rural Districts by the number of the Orders under seal, fixing the area of charge for each such operation, together with the loans borrowed for these purposes through the Public Works Commissioners.

In the year 1875-76 the number of such Orders was 79; in 1876-77 it was 89; in 1877-78 it was 122; in 1878-79 it was 117; in 1879-80 it was 126; and in 1880-1 103. From 25th March, 1881, to the 25th March, 1882, the number of additional Orders of Charge has been 79, issued to 58 different Unions.

On the whole, therefore, 715 Orders, fixing areas of charge for sewerage or water-supply, or both, have been issued during the last seven years.

These Orders have been applied for by 157 different Boards of Guardians out of 163 acting for Rural Sanitary Districts.

The number of Rural Sanitary Districts in which no such Orders have been issued is now reduced from 8 to 6, viz., the Unions of Ballymena, Castleblayney, Dundalk, Dunfanaghy, Londonderry, and Oughterard.

The preceding statements relate to Rural Sanitary Districts only, Orders fixing areas of charge not being applicable to Urban Sanitary Districts, inasmuch as in such districts all sanitary expenses are chargeable upon funds levied from the whole district.

27. In both Urban and Rural Sanitary Districts a considerable part of the expenditure on sewerage and water-supply is carried out by means of loans which, on recommendation from the Local Government Board, are issued to the Sanitary Authority in each case by the Public Works Commissioners for Ireland.

In the year ended 31st March, 1876, loans were so recommended to the extent of £37,584; in the following year to the further amount of £41,085; in the year ended 31st March, 1878, to the amount of £62,056; in the year ended 31st March, 1879, to the amount of £124,454; in the year ended 31st March, 1880, to £292,824; in the year ended 31st March, 1881, £199,252, making a total of £757,255, in the course of the six years.

The following is a List of Loans sanctioned by the Local Government Board, Ireland, from the 31st March, 1881, to the 31st March, 1882.

This expenditure, which is independent of disbursements from the current rates for the same purposes, relates mainly to the cost of structural works for water-supply and sewerage.

The amount of sanitary expenditure in Rural Sanitary Districts amounted in the year ended 29th September, 1881, to £48,918, in comparison with £51,927 in the preceding year.

ARTISANS AND LABOURERS' DWELLINGS IMPROVEMENT ACT, 1875.

28. In paragraph 34 of the Report for 1881, an account is given in continuation of previous accounts, of the steps which had been taken in Belfast, Dublin, and Cork, under the Artisans' Dwellings Act up to that time.

The Act is legally applicable to only five places in Ireland, namely, Dublin, Belfast, Cork, Limerick, and Londonderry.

We have obtained the following information respecting these projects in course of being carried out from the officers of the following Local Authorities :—

DUBLIN.—PLUNKET-STREET AREA.

The survey and valuation of the interests included in the area having been completed, the committee gave instructions to their valuers to enter into communication with the different parties

whose interests are affected by the scheme, with a view to awarding by private agreement, fair and reasonable compensation for their claims. In this manner, a considerable proportion of the property was obtained, its estimated value being about £5,000. Finally the committee lodged the schedule of the remaining interests and requested the Board of Public Works to appoint an arbitrator to adjudicate upon those claims with which the committee were unable to deal, and the arbitrator has now published his draft award and announced that he will sit on the 1st May to hear any objections that parties interested in it may be desirous of making. The Committee have taken up possession of and detenanted ten houses in Plunket-street and are proceeding with their demolition.

COOMBE AREA.

The terms of the agreement with the Artisans Dwellings Company, as mentioned in our last report, having been arranged and the necessary legal documents prepared and perfected, the company entered into possession of the ground. They are proceeding with the erection of suitable houses, in accordance with a plan, submitted to and approved of by the Artisans Dwellings Committee. Fifty houses have been erected and it is expected that before the close of the present year accommodation will be afforded for 150 families.

Owing to the unexpected increase in the expenditure over the estimate for this scheme, it became necessary to obtain an additional loan of £4,000 in order to complete the clearing of the area and the construction of the roads, footpaths, open spaces and sewers, and this having been done, a contract has been entered into for the works.

The loan of £20,000 originally obtained for the purpose of this scheme has been taken up and expended in its promotion.

CORK.

The Corporation has now completed the clearing and laying out (including formation of new roads, sewerage and lighting) of Area No. 1, of Artisans Dwellings Improvement Scheme, and is in treaty with the Improved Dwellings Company, Limited, with a view to letting the greater portion of the building sites included in the area, on lease for 900 years, at a rent of £60 a year, the Company undertaking to erect thereon suitable dwellings, according to plans to be approved by the Corporation.

Area No. 2, has been to a great extent cleared, most of the interests having been purchased by agreement, but it has not yet been laid out, nor any proposal received from any person proposing to erect dwellings.

Of the loan of £35,000 authorised for the purpose of improving the entire seven areas, the Corporation has received £22,000 from the Board of Works, £8,000 being the amount advanced since the 31st of March, 1881.

No steps have been taken under the Act in the three other urban districts to which it applies, namely: Londonderry, Limerick and Belfast.

DEPARTMENTAL ARRANGEMENTS.

29. Certain changes in the number of clerks, and in the organization of the office were recommended by a Departmental Committee last year, and these alterations met with the approval of the Lords Commissioners of her Majesty's Treasury, and have been carried out.

Two of the temporary Inspectors, Mr. Robinson and Major Spaight, who had been employed during the exceptional distress which had prevailed in Ireland since the year 1879, have been added to the permanent staff, the duties devolving on the Inspectors being more onerous than was the case before the year above mentioned.

We have recently been deprived by death, of the services of Mr. Edward J. Browne, one of our Auditors, and the vacancy thus created has been filled up by the appointment of Mr. Courtenay Croker.

We have no other changes in the department to report to your Excellency.

We have the honour to be,

Your Excellency's obedient faithful Servants,

W. E. FORSTER.

OUTDOOR RELIEF. (—— UNION).

To the GUARDIANS of the Poor of the —— UNION; to the CLERK and other Officers of the said Union, and to all other persons whom it may concern:

NOW THEREFORE, We, the Local Government Board for Ireland, do hereby authorize and empower the said Guardians to administer relief out of the workhouse, in food, to destitute poor persons not being persons permanently disabled from labour by reason of old age, infirmity, or bodily or mental defect, and not being persons disabled from labour by reason of severe sickness or serious accident, and thereby deprived of the means of earning a subsistence for themselves and their families, whom they are liable by law to maintain, and not being poor widows having two or more legitimate children dependent on them, for the period from the date of this Order to the

AND WE do hereby make the following rules and regulations as to the granting, ordering, and giving of relief to all persons who shall be relieved by the said Guardians under the authority of this order, that is to say:—

1. Every person relieved under the authority of this Order shall be relieved in food only and such food shall, as far as is practicable, be cooked food.

AND for the more effectual administration of relief under this Order, we do hereby authorize and direct the said Guardians to appoint so many relieving officers as shall be found sufficient from time to time, to superintend the labour of such persons as shall be set to work, in pursuance of the regulations in this Order contained, and otherwise to assist in the administration of relief under this Order, as the said Guardians, subject to our approval, shall direct.

No. 3.—GENERAL ORDER Assessing upon Sixteen CONTRIBUTORY UNIONS under the National School Teachers Act, their respective proportions of Results Fees for the year ending 31st March, 1882

TO THE GUARDIANS OF THE POOR of the several Unions named in the Schedule to this Order; To THE TREASURER of each of such Unions; and to all persons whom it may concern:

WHEREAS We, the Local Government Board for Ireland, have received from the Commissioners of National Education an Estimate for the year ending the 31st day of March, 1882, of the full amount payable as Results Fees in respect of Pupils attending the National Schools in each of the Unions which have become contributory Unions, under an Act passed in the Thirty-ninth year of the Reign of Her present Majesty, Queen Victoria, entitled "An Act to provide for additional Payments to Teachers of National Schools in Ireland:"

AND WHEREAS the Unions which have become contributory under the said Act are those of which the Names are placed in the first column of the Schedule hereto:

AND WHEREAS by the said Act it is enacted that the Commissioners of National Education shall require the Local Government Board in every year to provide a sum equal to one-third of such full amount payable as Results Fees as aforesaid, and that the said Local Government Board shall thereafter provide such sum in the manner by the said Act prescribed; and the Local Government Board have received from the Secretary of the Commissioners of National Education a requisition to provide, in the year 1881-82, a sum equal to one-third of such full amount aforesaid:

AND WHEREAS it is by the said Act further enacted—"Upon the receipt of every such estimate the Local Government Board shall by an Order under their Seal assess upon each contributory union a sum equal to one-third of the full amount payable as results fees in respect of pupils attending the National schools in such contributory union, and shall transmit a copy of such order to the guardians and likewise to the treasurer of such contributory union, stating the amount so assessed on such contributory union."

AND it is further enacted that "forthwith on the receipt of such order by the treasurer of any contributory union he shall, out of the funds then lying in his hands to the credit of the guardians of such union, or if there shall be then no sufficient assets, out of the moneys next received by him and placed to the credit of such guardians, pay over the amount so assessed on such contributory union to the Bank of Ireland, to be there placed to the credit of the Commissioners of Education to a separate account, to be entitled "The Results Fees Account:"

and that the guardians of such contributory union shall in their account with the electoral divisions of such contributory union debit each electoral division with its proportion of the said amount according to the net annual value for the time being of the property rateable to the rates for the relief of the destitute poor in each such division :”

AND WHEREAS it is provided by the said Act that if in any financial year the sum provided by the Local Government Board in respect of any contributory union exceeds the amount required for the purposes of the Act in such year in respect of such contributory union, such overplus shall be carried to the credit of the next following financial year, and in such last-mentioned year only such sum shall be raised by assessment on such contributory union as shall be necessary in addition thereto to make up the sum which would in the ordinary course under the said Act be required to be provided by the Local Government Board in respect of such contributory union in such next following year :

AND WHEREAS we have received from the Commissioners of National Education a statement of the surplus of previous assessments, as set forth in the fourth column of the Schedule hereto :

NOW THEREFORE, in pursuance of the powers vested in us by the said Act, We do hereby assess upon each of the unions named in the first column of the Schedule hereto the amount set opposite to its name in the fifth column, such sum being equal to one-third of such full amount payable as Results Fees as aforesaid by such Union, as set forth in the second column of the said Schedule, less the amount of surplus of previous assessments as set forth in the fourth column.

II.—CIRCULARS.

No 1.—APPOINTMENT of SISTERS of MERCY engaged as NURSES.

Local Government Board, Dublin,

SIR,

13th July, 1881.

The attention of the Local Government Board for Ireland has been directed to the fact that, in some instances, changes in the staff of nurses employed in workhouses have been made in a manner not authorized by the General Order relating to the appointment and duties of union officers, and that Sisters of Mercy engaged as nurses having given up the work, their places have been taken by others whose appointments have not been duly made by the Boards of Guardians; the Local Government Board, therefore, feel it necessary to direct the attention of the Board of Guardians of — Union to the 26th Article of the General Regulations, which provides that every officer and assistant shall be appointed by a majority of the Guardians present at any meeting of the Board, and that every such appointment shall, as soon as the same shall have been made, be reported to the Local Government Board by the Clerk to the Guardians.

The Board must also point out that salary is not legally payable to any officer or assistant who is not appointed by the Guardians in the manner prescribed by the regulation referred to.

By order of the Board,

B. BANKS, Secretary.

To the Clerk, — Union.

No. 2.—CIRCULAR to the BOARDS of GUARDIANS of UNIONS in which the FIRST SPECIAL SEED RATE has not yet been made.

SPECIAL SEED RATE.

Local Government Board, Dublin,

13th August, 1881.

SIR,

The Local Government Board for Ireland transmit to you herewith, for the information of the Board of Guardians, a copy of the 1st section of "The Local Government Board (Ireland) Amendment Act, 1881," which received the Royal assent on the 11th instant, and which provides for an extension of the time previously allowed for levying the special seed rates, and for the payment of the loans obtained under

"The Seed Supply (Ireland) Act, 1880," and enables the Guardians, with the consent of the Local Government Board, to collect and pay the debt by reduced instalments.

In the case of the — Union, no special rate having yet been made under the Seed Supply Act, it is open to the Board of Guardians to apply to the Local Government Board for permission to levy the whole sum due by means of four reduced rates, or to divide either of the special rates into two reduced rates; and, if the Guardians desire to take advantage of the provisions of the Act referred to, the Board will be prepared to give their careful attention to any representation they may set forth in their resolution on the subject, which must be adopted, in pursuance of the provisions of the Act, at a meeting of the Guardians duly assembled after fourteen days' notice.

The Local Government Board must direct the attention of the Guardians to the fact that unless they obtain the consent of the Board to the division of the special seed rates before the next ordinary rate is made, the whole of the first special rate must be added to and collected with such rate, to make provision for the payment of one-half of the debt to the Commissioners of Public Works on the 1st of August, 1882, and it would, therefore, be desirable that the Guardians should take the subject into consideration without any unnecessary delay.

By order of the Board,

B. BANKS, Secretary.

To the Clerk, — Union.

COPY of the 1st SECTION of the LOCAL GOVERNMENT BOARD (IRELAND) AMENDMENT ACT, 1881 (44 & 45 Vic., c. 28) which provides for an extension of the time for levying the SPECIAL SEED RATES.

"1. The Board of Guardians of any union may, with the consent of the Local Government Board,* divide, with reference to all or any of the electoral divisions of the union, each special rate which the guardians are empowered to make under the provisions of the seventh section of the Seed Supply (Ireland) Act, 1880†, as amended by the Relief of Distress (Ireland) Amendment Act, 1880‡ into two equal special rates (in this Act referred to as reduced seed rates), so that the sum which under the provisions of the said Act should be levied in any one year by means of one special rate, shall be levied in two consecutive years by means of two special rates. Where a resolution has been adopted by the Board of Guardians that such division should take effect, the first of the reduced seed rates shall be made at the same time as the first ordinary rate made for the relief of the poor in the union after the date of the resolution of the Board of Guardians. The subsequent reduced seed rates shall be made in consecutive years, one in every year at the same time as the ordinary rate made for the relief of the poor in the union after the first day of August in each year.

* Payment of Seed Loans.

† 43 Vict., c. 1.

‡ 43 & 44 Vict., c. 14.

"The following conditions shall apply to every resolution of any Board of Guardians on the subject of the division of such special rates :

- "(1.) Such resolution shall only be adopted by a majority of the guardians present and voting at a meeting duly assembled after fourteen days' notice given in the manner required by the general regulations of the Local Government Board ;
- "(2.) Such resolution shall not relieve the guardians of the union from any liability under the Seed Supply (Ireland) Act, 1880, as amended by the Relief of Distress (Ireland) Amendment Act, 1880, in respect of any special rate made, or which ought to have been made, before the adoption of the resolution by the Board of Guardians.

"Where any special rate is so divided under this Act, the repayment by the guardians of the union to the Commissioners of Public Works of the loan in respect of which the special rate was leviable shall be made by equal instalments, in this Act referred to as reduced instalments, which shall correspond in number to the number of the reduced seed rates authorized to be made, and shall be payable to the Commissioners of Public Works in consecutive years on the *first day of August* in each year ; the first of such reduced instalments shall, notwithstanding anything contained in the Seed Supply (Ireland) Act, 1880, requiring the payment to be made at some other time, whether before or after the passing of this Act, be due and payable to the Commissioners on the *first day of August*, after the date of the resolution of the Board of Guardians.

"Where the Board of Guardians of any union have failed to make provision for the levying of the special rate, which should have been made in respect of all or any of the electoral divisions of the union at the same time as the first ordinary rate made for the relief of the poor in the union after the first day of August, one thousand eight hundred and eighty, the Local Government Board may, if they think fit, by order direct the Board of Guardians to make a special seed rate for the purposes of the said Act, at the same time as the first ordinary rate for the relief of the poor in the union after the making of such order : and in such case the repayment by the Board of Guardians to the Commissioners of Public Works of the first instalment of the loan shall be made on the first day of August following the making of such order. In the case of any such union the provisions of this Act relative to the division of special rates shall only apply to the second of the special rates leviable in such union."

No. 3.—CIRCULAR to the BOARDS of GUARDIANS of UNIONS in which the FIRST SPECIAL SEED RATE has only been made in some Electoral Divisions.

SPECIAL SEED RATE.

SIR,
Local Government Board, Dublin,
13th August, 1881.

The Local Government Board for Ireland transmit to you herewith, for the information of the Board of Guardians, a copy of the 1st section of "The Local Government Board (Ireland) Amendment Act, 1881,"* which received the Royal assent on the 11th instant, and

which provides for an extension of the time previously allowed for levying the special seed rates, and for the payment of the loans obtained under "The Seed Supply (Ireland) Act, 1880," and enables the Guardians, with the consent of the Local Government Board, to collect and pay the debt by reduced instalments.

In the case of those electoral divisions of the — Union, scheduled under the Seed Supply Act, 1880, in which no special rate has yet been made under that Act, it is open to the Board of Guardians to apply to the Local Government Board for permission to levy the whole sum due by means of four reduced rates, or to divide either of the special rates, into two reduced rates; and with respect to those electoral divisions in which rates have been made for payment of the first instalment, it is open to the Board of Guardians to apply to the Local Government Board for permission to levy the second instalment by means of two reduced rates.

If the Guardians desire to take advantage of the provisions of the Act referred to, the Board will be prepared to give their careful attention to any representation they may set forth in their resolution on the subject, which must be adopted, in pursuance of the provisions of the Act, at a meeting of the Guardians duly assembled after fourteen days' notice.

The Guardians will observe that the provisions of this Act do not affect the instalment due to the Commissioners of Public Works on the 1st inst. by those Electoral Divisions in which the first special seed rate has been made, and that this money must be paid in accordance with the terms of the Seed Supply Act, 1880.

The Local Government Board must direct the attention of the Guardians to the fact that unless they obtain the consent of the Board to the division of the special seed rates before the next ordinary rate is made, the whole of the first special rate must be added to and collected with such rate in the electoral divisions in which the seed rate was postponed last year, and the whole of the second special seed rate in the other scheduled electoral divisions, in order that provision may be made for the payment of one-half of the debt to the Commissioners of Public Works on the 1st August, 1882; it would, therefore, be desirable that the Guardians should take the subject into consideration without any unnecessary delay.

By order of the Board,

The provisions of this Act do not affect the instalment due by the Board of Guardians of the — Union to the Commissioners of Public Works on the 1st inst., which must be paid in accordance with the terms of the Seed Supply Act, 1880, but it is open to the Guardians to apply to the Local Government Board for permission to levy the second instalment of the sum due, by means of two reduced rates, and, if the Guardians desire to do so, the Board will be prepared to give their careful attention to any representation they may set forth in their resolution on the subject, which must be adopted, in pursuance of the provisions of the Act, at a meeting of the Guardians duly assembled after fourteen days' notice.

No. 5.—COLLECTION OF SEED RATE.

Local Government Board, Dublin,

SIR,

18th August, 1881.

The Local Government Board for Ireland having received several inquiries as to the person upon whom the special seed rate should be made, under the Seed Supply Act, in cases where the person to whom the seed was sold had ceased to occupy the rated premises before the rate was made, and also as to the person from whom it should be recovered in cases of changes of occupancy after the making of the special rate, but before it could be collected, the Board have consulted counsel on the subject, and they think it right to state, for the information and guidance of the Board of Guardians, the substance of the advice which they have obtained, which is as follows:

"Under the 7th section of the Act payment of the amount due cannot be obtained from any one except the 'person indebted to the Guardians:'—that is, the 'person' to whom the seed was sold, and in cases where the person to whom the seed was sold has parted with the rateable premises before the making of the rate, his successor in the occupation cannot be rated. A special rate must in such a case be made for the purpose of enforcing payment from the person to whom the seed was sold; and it appears to the Board that this may be most

conveniently done by entering the name of the person liable for seed rate under the name of the person rated for poor rate, with a supplemental number."

The loss which may be incurred in any Electoral Division by reason of changes of occupancy will fall on the ratepayers of such Electoral Division generally, as the loans to the Board of Guardians under the Seed Supply Act have been made, according to the 3rd Section, "on the security of any rate applicable to any of the purposes of the Acts for the relief of the poor in the electoral division for the use of which the loan is made," and by the 4th section all such rates are expressly charged with the repayment of the instalments.

By order of the Board,

B. BANKS, Secretary.

To the Clerk of the ——— Union.

No. 6.—SUPERANNUATION ALLOWANCES.

Local Government Board, Dublin,
25th November, 1881.

SIR,

The attention of the Local Government Board for Ireland has been drawn to the circumstance that great diversity of practice exists among Boards of Guardians in reference to the amount of superannuation allowances proposed to be awarded to officers employed under the Poor Law and Medical Charities Acts on their ceasing to hold office.

The maximum superannuation allowance that can be granted to any officer, whatever his length of service may have been, is two-thirds of the amount of his salary and emoluments, but the Board have found that, in some instances, allowances have been proposed which were quite disproportionate to the length of service of the retiring officer, and equal, or very nearly equal, to two-thirds of his salary and emoluments, even though his period of service may have been comparatively short.

It must be borne in mind that these grants affect not only the present but future ratepayers also, and, the consent of the Board being made necessary to the grant of any superannuation allowance under the Union Officers Superannuation Acts, the Board have thought it right to take the subject into consideration, with a view to laying down some general scale for their own guidance in dealing with pensions submitted for their approval, and they have referred to the provisions of the Civil Service Superannuation Act of 1859 as indicating the principle which might properly be adopted in dealing with such cases, which is to fix the amount mainly with reference to the length of the officers' service.

The Board, therefore, think it expedient to state, for the information of Boards of Guardians, that in giving their consent in future to superannuation allowances proposed to be granted to union officers they will be governed, as far as circumstances may permit, by the rules applicable to the superannuation of the Civil Servants of the Crown under the Superannuation Act of 1859; following, then, the scale of allowances proscribed by that Act, the amount which may, in the opinion of the Board, be properly awarded to an officer who has served

with efficiency for ten years and upwards, and under eleven years, will be an annual sum equal to ten-sixtieths of his salary and emoluments, and an addition of one-sixtieth in respect of each additional year of service until a maximum of forty-sixtieths, or two-thirds, be reached, which is the highest amount authorized by the Union Officers Superannuation Acts.

In cases where, for the due and efficient discharge of the duties of any office, professional or other, special qualifications are required, a number of years not exceeding ten may, for the purpose of the computation, be added to the number of years during which the officer has served, provided such addition does not raise the amount to be awarded above the maximum amount of two-thirds of his salary and emoluments.

It will, of course, be open to the Guardians, if they see fit, to propose a grant on a lower scale than that above indicated.

The Board take this opportunity to state that they have observed, with regret, that in some unions the Guardians have refused to grant superannuation allowances to old and deserving officers whose services have fully entitled them to consideration in that respect, and this course has not only afforded just cause for complaint, but has also induced Officers who have become inefficient by reason of age and infirmity to struggle on in their situations while physically unable to discharge their duties with activity and with advantage to the public service.

The Local Government Board believe that motives of economy, and a fear of burdening the rates with large pensions, have induced Boards of Guardians to adopt the course referred to; and the Board trust that, when Guardians who have hitherto declined to grant pensions are aware that superannuation allowances to their officers will only be sanctioned on a fair and reasonable scale, they will not refuse to entertain applications which may be made to them by deserving officers who are obliged to leave their service, and whose cases may properly be dealt with under the provisions of the Acts herein referred to.

By order of the Board,

B. BANKS, Secretary.

To the Clerk of each Union.

**No. 7.—RELIEF under PROTECTION of PERSON
and PROPERTY ACT.**

Local Government Board, Dublin,
14th December, 1881.

SIR,

The attention of the Local Government Board for Ireland has recently been directed to cases in which relief has been illegally administered by Boards of Guardians, acting under an erroneous impression as to their powers under the Protection of Person and Property Act, 1881, and the Evicted Poor Protection Act, 1848, and, as illegal charges for relief are liable to disallowance by the Auditor of Union Accounts, the Board think it right to address the Guardians on some points which do not appear to have been properly understood.

With reference to outdoor relief to the families of persons detained

under the Protection of Person and Property Act, the Board think it necessary to observe that the second section of that Act and the third section of the Relief of Distress Act, 1880, must be read together, and that outdoor relief may only be given under the provisions of the above mentioned Acts when an order of the Local Government Board authorizing such relief is in force, and cannot be legally afforded in anticipation of obtaining such an order, or after it expires; and, further that outdoor relief in such cases must be restricted to food and fuel, or either of them, and may not be granted in money.

With respect to the relief of persons who become destitute by reason of their being evicted from any dwelling-house, or other building used as a dwelling-house, the Board desire to acquaint the Guardians that they are advised that in cases where temporary relief is afforded by the Relieving Officer pending the next ordinary meeting of the Board of Guardians the period of one calendar month during which the Guardians may give exceptional outdoor relief to the persons evicted runs from the time when temporary relief is first afforded by the Relieving Officer; and that in cases where the relief is granted in the first instance by the Board of Guardians, no temporary relief having been given by the Relieving Officer, the period during which the Guardians have power to afford exceptional outdoor relief under the Act is one calendar month from the day of the eviction, that being the day on which temporary relief might legally have been given by the Relieving Officer.

The Board annex, for the information of the Guardians, extracts from the Acts referred to in this communication.

By order,

B. BANKS, Secretary.

To the Clerk of each Union.

EXTRACTS from the ACTS of PARLIAMENT referred to in the foregoing CIRCULAR.

I. PROTECTION OF PERSON AND PROPERTY (IRELAND) ACT, 1881.
(44 Vic., ch. 4, sec. 2.)

"The enactments contained in the third section of the Relief of Distress (Ireland) Act, 1880, as amended by the ninth section of the Relief of Distress (Ireland) Amendment Act, 1880, shall, so far as relates to the families of persons for the time being detained under this Act, continue in force during the continuance of this Act.

II. RELIEF OF DISTRESS (IRELAND) ACT, 1880.—(43 Vic., ch. 4, sec. 3.)

"At any time after the passing of this Act, and before the thirty-first day of December, one thousand eight hundred and eighty, the Local Government Board may, from time to time, if and so far as they think fit, authorize by order under their seal the Guardians of the Poor of any union to administer relief in food and fuel, or either of them, out of the workhouse, to poor persons, whether such poor persons might, under the Poor Law Acts, have obtained relief out of the workhouse or not, in the union, or in any electoral division or divisions thereof, for any time not exceeding two calendar months from the date of such Order; and the Local Government Board may, from time to time, by an Order under their seal for that purpose, revoke any such Order either wholly or with reference to any particular person or class of persons in receipt of such relief; and on the receipt by the Guardians of any union of any such Order of the Local Government Board authorizing such relief in

food and fuel, or either of them, the Guardians shall make provision for affording such relief accordingly for such time and on such conditions as may be specified in the Order, or until the said Order is revoked; and the proviso at the end of the second section of the Act passed in the session of Parliament of the twenty-fifth and twenty-sixth years of the reign of Her present Majesty, chapter eighty-three, shall not apply to the relief to be afforded under this Act.

III. EVICTED POOR PROTECTION ACT, 1848.

(11 & 12 Vic., ch. 47, sec. 4).

Local Government Board, Dublin.

28th December, 1881.

Sir,

The Local Government Board for Ireland are desirous that the copies of the minutes of proceedings of Boards of Guardians, which are transmitted to them weekly, should in future be forwarded to them in two distinct and separate portions, one of such portions to comprise the proceedings under the Irish Poor Relief Acts; the other, the proceedings under the Medical Charities Acts and the proceedings of the Boards of Guardians under the Public Health Acts, as the Rural Sanitary Authority.

Sir,

In pursuance of the 4th Section of "The National School Teachers (Ireland) Act, 1875," the Local Government Board for Ireland transmit to you herewith, to be laid before the Board of Guardians of — Union, the notice which they are required by that section to transmit, on or before the 1st day of January, to the Guardians of every union which shall not at such time be a contributory union within the meaning of the Act.

The notice now transmitted, as in the case of the notice which was transmitted on the 30th December last, requires the Guardians within forty days from the receipt thereof, to inform the Local Government Board whether, for the purpose of increasing the remuneration of the teachers of National Schools within the union, they are willing to make their union a contributory union within the meaning of the Act, and the Guardians will observe therefore that by the present notice they are now called upon in pursuance of the requirement of the Act, to decide whether they will become contributory for the year 1882-83 (that is for the year commencing on the 1st April next), and subsequent years, until the resolution to contribute be legally revoked.

The Board forwarded with their circular of the 30th August, 1875, a copy of the Act, and of various other documents relating to this subject,

and they desire to refer the Board of Guardians to that circular and the documents which accompanied it, for any information which they may require before replying to the enclosed notice.

The Board have to add that the Commissioners of National Education have furnished them with an estimate of the probable amount which will be payable by the Guardians of the several unions in results fees to teachers of National Schools within the respective unions for the year 1882-83, and the liability which according to this estimate, the Guardians will incur by making their union a contributory one is not expected to exceed £

APPENDIX B.

CIRCULARS OF INSTRUCTION AND CORRESPONDENCE UNDER THE
MEDICAL CHARITIES ACT AND VACCINATION ACTS.

No 1.—REVISED LISTS of MEDICINES and MEDICAL and SURGICAL APPLIANCES.

Local Government Board, Dublin,
30th August, 1881.

SIR,

The Local Government Board for Ireland forward herewith, for the information of the Board of Guardians, revised lists of medicines, and medical and surgical appliances (A and C,) which have been prepared for the instruction of Medical Officers when drawing up requisitions for medicines, &c.

Form A to be used by Medical Officers of dispensary districts.

Form C by Workhouse Medical Officers.

The list of medicines has been compiled from the last edition of the *British Pharmacopœia*.

In making selections some high priced medicines which are frequently variable in quality have been omitted, but less expensive remedies having similar powers have been retained.

A form of Tender for Medicines (B) is also enclosed.

The Local Government Board recommend those three forms, A, B and C for general use. Boards of Guardians should order a sufficient number to be printed and kept in stock, to be issued when applied for by Medical Officers, or persons desirous of tendering for contracts.

In the event of a Medical Officer requiring to be supplied with any medicine, &c., not included in the list, a distinct requisition should be submitted by him to the Committee of Management or the Board of Guardians, as the case may be, stating the circumstances which, in his opinion, render the special requisition necessary.

By order of the Local Government Board,
B. BANKS, Secretary.

To the Clerk of each Union.

A.—MEDICAL CHARITIES ACT, 14 & 15 Victoria, Cap. 68.

FORMS M 1 & 2.—ESTIMATE and REQUISITION for MEDICINES, &c.

With regard to the periodical Estimate and Requisition for Medicines, &c. (Forms M 1 and 2), it appears to have been in some cases supposed that, on each occasion when an estimate is sent in, it should contain an account of *all the articles in the Dispensary*, which would involve the necessity of taking stock of the entire contents of the dispensary on every such occasion. The heading of the Form of Estimate (M 1) is, "Estimate of Medicines, &c., required;" and the particulars indicated in the Form need only be filled up (in accordance with Article 16, No. v., and Article 21, No. vi., of the Regulations) in reference to those medicines, &c., of which a further supply is required, stating in the respective columns for the purpose the stock remaining (which can be estimated as nearly as may be), respectively, and the further quantity required. In drawing up a requisition for medicines, the Medical Officer should only apply for quantities sufficient for use during the following three months. He should keep in mind that many medicines are of such a perishable nature they deteriorate in quality, and even become inert by long keeping. The estimates and requisitions for medicines are to be made out in duplicate, one copy for transmission to the Guardians, and one to be retained at the dispensary for com-

parison with the supply afterwards received, the invoice of which the Commissioners have requested the Clerk of the Union to forward to the Medical Officer, to be retained and filed at the dispensary in all cases.

In the event of a Medical Officer requiring to be supplied with any medicine not comprised in the list, a distinct requisition for such medicine should be made by the Medical Officer, through the Committee of Management, stating the circumstances which are considered to render the requisition necessary.

The following list of medicines has been compiled from the last edition of the *British Pharmacopoeia*. In making selections, some high-priced medicines which are frequently variable in quality have been omitted, but less expensive remedies having similar powers have been retained.

FORM M 1.—ESTIMATE OF MEDICINES, &c., REQUIRED.

In ordering medicines and in the inspection of them when received the Medical Officer should bear in mind that all solids should be ordered by weight, and all liquids by imperial measure, and that the preparations should be made in strict accordance with the last edition of the *British Pharmacopoeia*.

C.—ESTIMATE for MEDICINES, &c., for — UNION WORKHOUSE.

In drawing up a requisition for medicines, the Medical Officer should only apply for quantities sufficient for use during the following three months. He should keep in mind that many medicines are of such a perishable nature that they deteriorate in quality, and even become inert by long keeping.

In the event of a Medical Officer requiring to be supplied with *any medicine not comprised in the list, a distinct requisition for such medicine* should be made by the Medical Officer, through the Board of Guardians, stating the circumstances which are considered to render the requisition necessary.

The following list of medicines has been compiled from the last edition of the *British Pharmacopoeia*. In making selections, some high-priced medicines which are frequently variable in quality have been omitted, but less expensive remedies having similar powers have been retained.

In ordering medicines and in the inspection of them when received, the Medical Officer should bear in mind that all solids should be ordered by weight, and all liquids by imperial measure, and that the preparations should be made in strict accordance with the last edition of the *British Pharmacopoeia*.

No. I.—PROVISIONAL ORDERS—LOANS.

Local Government Board, Dublin,

SIR,

29th October, 1881.

The Local Government Board for Ireland forward herewith a revised copy of the instructions which were forwarded with their instructional circular of the 30th March, 1880, on the subject of Applications for Provisional Orders relating to the purchase of lands otherwise than by agreement.

You will observe that the instructions have been revised by the insertion of a paragraph to the effect that if a loan is required to carry out the purposes in respect of which the lands are proposed to be taken, formal application for such loan should be made when the petition is presented, accompanied by an estimate of the cost of the undertaking.

The object of this requirement is not only to obtain such information as to the probable cost of the undertaking as it may be necessary to consider in determining the question of whether the Provisional Order shall be issued; but also, in the event of the required loan being of such an amount as to render a local inquiry by an Inspector necessary under Sec. 238 (Sub-sec. 3) of the Public Health Act, 1878, that such inquiry may be held at the same time as the inquiry with a view to the Provisional Order.

By order of the Board,

B. BANKS, Secretary.

To the Executive Officer of each Sanitary Authority.

PUBLIC HEALTH (IRELAND) ACT, 1878.

(Section 203.)

REVISED INSTRUCTIONS AS TO APPLICATIONS to the LOCAL GOVERNMENT BOARD for IRELAND, for Provisional Orders to put in force the Lands Clauses Acts with respect to the Purchase of Lands otherwise than by agreement.

1. The application must be made by a petition, under the seal of the Sanitary Authority, containing the particulars required by sub-section 3, of section 203. It must state the lands intended to be taken, in a schedule which should correspond with the Book of Reference mentioned in instruction 4.

2. The petition must not be presented sooner than fourteen days after the service of notices to occupiers, which must be served under sub-section 2.

3. The petition should be accompanied by a copy of the plan of the proposed undertaking which was lodged for inspection under sub-section 2, and which should be on a scale of not more than 220 feet to one inch, showing the properties, portion of which is to be taken, or which would

be otherwise affected,* with a distinctive number marked on each portion of each of such properties. The plan should be coloured so as to distinguish the lands, or lands covered with water, proposed to be actually purchased, with the area of each marked in statute acres, roods, and perches.

4. The petition should also be accompanied by a book of reference in duplicate, in which the nature of each property taken or affected, the number it bears on the plan, the townland and parish in which it is situate, and the names of the owner, or reputed owner, lessee, or reputed lessee, and occupier should be clearly set out.

5. If a loan is required to carry out the purposes in respect of which the lands are proposed to be taken, application for such loan should be made when the petition is presented, accompanied by an estimate of the cost of the undertaking.

6. There must also be a statutory declaration showing that the requirements of section 203, with respect to advertisements and notices have been duly complied with. The declaration must be properly stamped, and copies of the newspapers containing the advertisements, and also of the form of notices should be annexed as exhibits. It should specify the manner in which the notices have been served, and so far as relates to these notices it should be made by the person who served them.

7. When the plans and book of reference relating to the petition are deposited in this department, duplicates of same must, according to the standing orders, be *at the same time* deposited in the office of the Clerk of the Parliaments in the House of Lords, and in the Private Bill Office in the House of Commons, *but* if the deposit be made after the prorogation of Parliament, and before the 30th day of November in any year, the duplicates as above must be deposited *on* the 30th day of November.

The following is a copy of the 203rd section of the Public Health Act, 1878, referred to in the above instructions:—

"203. With respect to the purchase of lands, or of any of the other properties aforesaid (herein included under the term "lands"), by a Sanitary Authority for the purposes of this Act, the following regulations shall be observed; (that is to say,)

"(1.) The Lands Clauses Acts shall be incorporated with this Act, except the provisions relating to access to the special Act, and except section one hundred and twenty-seven of the Lands Clauses Consolidation Act, 1845.

"(2.) The Sanitary Authority before putting in force any of the powers of the said Lands Clauses Acts with respect to the purchase and taking of land otherwise than by agreement, shall

"Publish once at the least in each of three consecutive weeks in the month of November in some newspaper or newspapers circulating in their district, an advertisement describing shortly the purposes in respect of which the lands are proposed to be taken, naming a place where a plan of the proposed undertaking may be seen at all reasonable hours, and stating the denominations and quantity of lands that they require; and shall further

* Such as way-leaves.

"Serve a notice in the month of December on every owner or reputed owner, lessee or reputed lessee, and occupier of such lands, defining in each case the particular lands intended to be taken, and requiring an answer stating whether the person so served assents, dissents, or is neuter in respect of the taking such lands :

"(3.) On compliance with the provisions of this section with respect to advertisements and notices, and not sooner than fourteen days after the service of the last-mentioned notices, the Sanitary Authority may, if they think fit, present a petition under their seal to the Local Government Board. The petition shall state the lands intended to be taken, and the purposes for which they are required, and the names of the owners, lessees, and occupiers of lands who have assented, dissented, or are neutral in respect of the taking such lands, or who have returned no answer to the notice; it shall pray that the Sanitary Authority may, with reference to such lands, be allowed to put in force the powers of the Lands Clauses Acts with respect to the purchase and taking of lands otherwise than by agreement, and such prayer shall be supported by such evidence as the Local Government Board requires.

"(4.) On the receipt of such petition, and on due proof of the proper advertisements having been published, and notices served, the Local Government Board shall take such petition into consideration, and may either dismiss the same, or direct a local inquiry as to the propriety of assenting to the prayer of such petition; but until such inquiry has been made no provisional order shall be made affecting any lands without the consent of the owners, lessees, and occupiers thereof.

"(5.) After the completion of such inquiry the Local Government Board may, by provisional order, empower the Sanitary Authority to put in force, with reference to the lands referred to in such order, the powers of the Lands Clauses Acts with respect to the purchase and taking of lands otherwise than by agreement, or any of them, and either absolutely or with such conditions and modifications as the Board may think fit, and it shall be the duty of the Sanitary Authority to serve a copy of any order so made in the manner and on the person in which and on whom notices in respect of such lands are required to be served.

"Provided that the notices by this section required to be given in the months of November and December may be given in the months of September and October, or of October and November, but in either of such last-mentioned cases an inquiry preliminary to the provisional order to which such notices refer, shall not be held until the expiration of one month from the last day of the second of the two months in which the notices are given; and any notices or orders by this section required to be served on a number of persons having any right in, over, or on lands in common, may be served on any three or more of such persons on behalf of all such persons.

29th October, 1881.

3—ACCOUNTS of URBAN SANITARY AUTHORITIES.

Local Government Board, Dublin,

SIR,

11th April, 1881.

The Local Government Board for Ireland desire to state, for the information of the ——— Sanitary Authority that the Board's attention has recently been drawn to the various dates at which the accounts of Urban Sanitary Authorities are now made up.

The dates at which the accounts of Rural Sanitary Authorities are to be made up have already been appointed by the Local Government Board, and are uniform; and it has appeared to be desirable that the dates for Urban Sanitary Authorities should be made uniform also.

Several of the Urban Sanitary Authorities' accounts are made up at present to the 31st of December in each year; and at the request of the Dublin Urban Sanitary Authority, the Local Government Board, in pursuance of the provisions of the 248th Section of the Public Health Act, have issued an Order under Seal appointing that date (31st December), as the date to which the Dublin Accounts shall hereafter be made up.

It would manifestly be of much advantage for statistical purposes that the accounts of all Urban Sanitary Authorities should be closed to the same date, and the Local Government Board would invite the attention of the ——— Sanitary Authority to the matter, with a view to their consideration of the subject, as, if they would desire to have the change referred to made, the Local Government Board would be prepared to give effect to their wishes by making an Order similar to that issued in the case of Dublin

5.—REGISTRATION OF DEATHS.

Local Government Board, Dublin,

SIR,

30th July, 1881.

The Local Government Board for Ireland are informed by the Registrar-General that the returns of deaths in the workhouse, which it is the duty of the master of the workhouse to make to the Registrar of the district in which the workhouse is situated, do not, in many cases, show the former residence of the deceased, and that it is very desirable for the purposes of his department that this information should be supplied.

The Board are aware that in many cases, especially where the deceased was charged to the union at large, the Workhouse Register may not enable the master to furnish this information, but the Relieving Officer's Application and Report Book should contain such information as would enable him to obtain it from them, and as those Officers are required to attend every week at the workhouse he would not have any difficulty in doing so.

The Board request, therefore, that the Board of Guardians will be so good as to make this communication known to the master (for which purpose a copy is enclosed), and to enjoin him to use every means in his power to obtain the requisite information as to the previous residence of persons admitted to the workhouse, and, in cases of death, to include that information in his return to the Registrar of the district.

By order of the Board,

B. BANKS, Secretary.

To the Clerk of each Union.

ALKALI, &c., WORKS REGULATION ACT, 1881.

(44 & 45 Vict., c. 37.)

SIR,

Local Government Board,
Whitehall, S.W., 24th October, 1881.

I am directed by the Local Government Board to state that, with a view of giving effect to the provisions of the Alkali, &c., Works Regulation Act, 1881, they are desirous of ascertaining the number of works in the several sanitary districts in England and Wales which will be affected by the Act, and the names and addresses of the proprietors or managers of such works.

By the Alkali Acts, 1863, and 1874, all alkali works, viz.: works for the manufacture of alkali, sulphate of soda, or sulphate of potash, in which muriatic acid gas is evolved, were placed under the inspection of inspectors, appointed by the central authority, in order to insure the condensation of the noxious gases evolved by such works, either within a prescribed limit, or according to the best practicable and available means.

The Alkali Works, &c., Regulation Act, 1881, passed during the last Session, has consolidated the Acts of 1863 and 1874, and largely extended the beneficial policy of those Acts by providing for the inspection of various other works in which noxious or offensive gases are evolved so that the adoption of the best practicable and available means of condensation may be secured.

The works to which the Act applies, and which, in addition to alkali works, will now be brought under skilled inspection from and after the first day of January next, are the following:—

- (1.) Sulphuric acid works.
- (2.) Chemical Manure works.
- (3.) Gas liquor works.
- (4.) Nitric acid works.
- (5.) Sulphate of ammonia works and muriate of ammonia works; and
- (6.) Chlorine works, or works in which chlorine, bleaching powder, or bleaching liquor is made.

As regards the foregoing works it will be the duty of the Inspector to see that the noxious and offensive gases evolved from them are condensed in accordance with the requirements of the Act, and to take proceedings against the proprietors in cases of default.

The Act further provides for the inspection of—

- (1.) Salt works, in which the extraction of salt from brine is carried on, and
- (2.) Cement works, or works in which aluminous deposits are treated for the purpose of making cement.

In these cases, however, the Act itself does not impose any limit with regard to the escape of the noxious gases evolved; but enables the Local Government Board, under certain restrictions, to require by Provisional Order that the best means for rendering such gases harmless or inoffensive shall be adopted.

In order that the several works before referred to may be brought under inspection, the Act requires that every work shall be duly registered in manner prescribed by the Board, and that from and after the first day of April, 1882, no work shall be carried on unless it is certified to be so registered.

For the purpose of enabling the Board to determine what arrangement it will be necessary to make for the inspection of all the works to which the Act applies it is essential that they should be in possession of accurate information as to the number and description of such works. They should also know the names and addresses of the proprietors, so that instructions may be issued to them pointing out the steps to be taken to obtain the requisite certificates of registration.

I am, therefore, to request that the sanitary authority will have the goodness to cause the Board to be furnished in the enclosed form with the information required, so far as regards such of the noxious trades of the kinds specified as are carried on within the limits of the district of the sanitary authority.

The Board entertain no doubt that with the assistance of the Medical Officer of Health and Inspector of Nuisances there will be no difficulty in supplying the particulars asked for, and they will be glad to receive the Return duly filled up not later than the 14th of November next.

Before concluding this communication the Board think it right to direct the attention of the sanitary authority to two sections of the Act of the last Session which are of considerable importance. The first is section 19, which enacts that if any sanitary authority applies to the central authority for an additional Inspector under the Act, and undertakes to pay not less than a moiety of his salary, the Local Government Board may, with the sanction of the Lords Commissioners of Her Majesty's Treasury, appoint an additional Inspector, who is to reside within a convenient distance of the works he is required to inspect.

The second is section 28, which provides that where a nuisance arising

from any noxious or offensive gas or gases is wholly or partially caused by the acts or defaults of several persons, any person injured may proceed against any one or more of such persons, and may recover damages from each defendant, in proportion to his contribution to the nuisance, notwithstanding that the act or default of such defendant would not separately have caused a nuisance. This section, however, does not apply to a defendant who can produce a certificate from the Chief Inspector that, in the works of such defendant, the requirements of the Act have been complied with and were complied with when the nuisance arose.

It may also be mentioned that where it appears to any sanitary authority on the representation of any of their officers, or of any ten inhabitants of their district, that any work to which the Act applies is carried on in contravention of it, and that a nuisance is occasioned thereby to any of the inhabitants of their district, the authority may complain to the central authority, who shall make such inquiry into the matters complained of, and after the inquiry, may direct such proceedings to be taken, as they may deem just.

I am, sir, your obedient servant,

JOHN LAMBERT, Secretary.

To the Clerk of the Sanitary Authority.

An Alphabetical Index List of the Dispensary Districts is annexed (No. 6), showing the name of the Union in which each District is situated, and referring to the table and page in which the particulars relating to each District are to be found.]
